## ASPIRE

**Course Concept :** The Aspire course is a comprehensive course, designed to inculcate the habit of internalizing concepts at an early stage, to enable students to apply them at will in both real life problems as well as in exams. Spread over a span of two years, this course is designed to help students transit smoothly through the course and build a strong foundation for Mathematics, Chemistry and Physics. More so, it guides the students right upto the level of JEE Advanced and nurtures the student for complex questions, as it is based on a pedagogical philosophy of conceptual clarity leading to structured thinking, further leading to logical problem solving.
